

Complimentary MCLE Presentation to Learn More About Currently Available Litigation Technology– Southern California Only

OBJECTIVE

Provide an overview of available litigation software and examples of streamlining transcript and exhibit management for 1-hour of general CLE credit.

TOPIC OUTLINE

- 1) An introduction to a few of the latest options in transcript and exhibit management – is there something better than having to rely on paper?
- 2) E-Transcript™ - electronic transcript access, retrieval and communication benefits
- 3) Electronic transcript management – a three stage evaluation:
 - a) Deposition Preparation
 - Setting up the case
 - Defining Issues
 - Considering the realtime option
 - b) During deposition
 - Quick Marks
 - Word/Phrase Searching
 - Videoconferencing – is this an option?
 - Off-site communication – expert/consultant in the wings
 - Receipt of the rough transcript
 - c) Post deposition
 - Issue Coding & Report Generation
 - Updating the Rough Transcript
 - Importing other Transcripts (ASCII & E-Trans)
 - Linking imaged exhibits
 - Synchronizing video
- 4) Transcript Archiving: Past, Present & Future
- 5) Exhibit & Transcript Bundling – partnering in a paperless environment
- 6) Where do we go from here? – evaluation, implementation, training & support
